

18 January 1974

NOTE FOR: Chairman, Security Committee

SUBJECT : Navy's Comments on Revision of  
Travel Restrictions

1. While appreciative of the obvious time and attention given to the proposal to modify our ponderously executed travel restrictions in the codeword area, I categorically and without exception reject the Navy Member's proposed changes.

2. The changes are "preferential", the "reasoning" and support comments for the changes are not beneficial or contributory to the main goal of making the travel restrictions policy a simple concept, easily implemented.

3. I would be pleased to argue my case with the Navy Member, if you OK.

Chief, Special Security Center
